

Brady offers a range of durable labels suitable for safety and facility identification applications. The labels are engineered to stay attached and remain legible in the most challenging conditions when printed with the BMP71 Label Printer.

**Safety signs and labels**

**B-483**

Printable labels with pre-printed headers - CAUTION/WARNING/DANGER/NOTICE - enables you to quickly print variable information next to highly visible titles.

**B-584**

The reflective quality of this material makes it ideal for reading labels in low light conditions (with flashlights).

**B-595**

Versatile indoor/outdoor vinyl labels ideal for general purpose labelling in harsh environments.

**B-7593**

Engraved plate replacement labels are specifically designed to replace engraved and plotted plates for identification of cabinets, push buttons etc.

**Exit and directional signs**

**B-582**

Photoluminescent glow-in-the dark polyester, ideal for exit and directional signs for escape or evacuation routes, identification of fire alarms and extinguishers as well as pathway markings.

**Area and pathway marking**

**B-483/B-634**

ToughStripe printable floor marking tape that withstands forklift and pallet jack traffic without tearing or lifting.

**Pipe and valve marking**

**B-595**

Indoor/Outdoor vinyl adheres to bare, insulated or jacketed pipes with 8-10 year outdoor durability.

**Food processing equipment marking**

**B-854, B-855**

ToughWash Series label. Durable label construction resists harsh washdown environments and has been tested at washdown temperatures up to 80°C and pressures up to 1500 PSI. B-854 is a metal detectable version, capable of being detected by commercially available metal detectors.

**Maintenance labels**

**B-423**

Printable labels with pre-printed headers - TESTED - enables you to quickly print variable information next to highly visible titles.

**B-428**

Printable labels with pre-printed headers - CALIBRATION - enables you to quickly print variable information next to highly visible titles.

**Lean warehouse labels**

**B-581**

Best choice for indoor marking where frequent repositioning is required, such as shelves. Special adhesive allows easy removal of label to re-apply again.

## Asset & Component Marking

Brady offers a range of materials with aggressive adhesives for use in commercial/industrial applications, including low surface energy and textured surfaces. All of these can be printed with the BMP71 Label Printer.

Name & rating plate labels for smooth, high energy surfaces (e.g. metal, glass and aluminium)		
	<b>B-423</b> White glossy polyester.	
	<b>B-428</b> Metalised matt polyester, available with pre-printed headers "Property Tag" and "Calibration".	
	<b>B-430</b> Clear glossy polyester.	
	<b>B-435</b> Metalised glossy polyester.	
	<b>B-529</b> White glossy polypropylene film with an acrylic pressure sensitive adhesive designed for printing indoor labels.	

Name & rating plate labels for smooth, low energy & textured surfaces (e.g. polypropylene & polyethylene)		
	<b>B-422</b> White glossy polyester with 2 mil adhesive recommended for textured surfaces.	
	<b>B-432</b> Clear glossy polyester, similar to B-430 but with thicker adhesive, recommended for textured surfaces.	
	<b>B-439</b> Vinyl with a satin finish available in a wide range of colours.	
	<b>B-499</b> White matt nylon cloth, high adhesion ideal for environments where heat, oil and dirt are present.	

Name & rating plate labels for rough surfaces		
	<b>B-483</b> White glossy polyester, high adhesion to textured metals & low energy surfaces.	
	<b>B-486</b> Metalised matt polyester, high adhesion to textured metals & low energy surfaces.	
	<b>B-489</b> White matt polyester, high adhesion to textured metals & low energy surfaces.	

## Security Identification

Brady offers a range of tamper-resistant materials which destruct into tiny fragments upon removal. This makes any attempt to remove the label very difficult and time consuming. All of these can be printed with the BMP71 Label Printer.

Security Identification Labels		
	<b>B-351</b> Tamper-resistant white matt vinyl for rating and serial plates that require high performance and resistance to product tampering.	
	<b>B-362</b> Tamper-resistant metalised matt vinyl for rating and serial plates that require high performance and resistance to product tampering.	
	<b>B-530</b> Tamper-resistant white glossy vinyl with pressure sensitive acrylic used in asset identification, and applications that require resistance to product tampering.
